Alex Marinescu

Web Application Developer Intern

Email: alex.marinescu@example.com | Phone: +40 700 111 001 | Location: Bucharest, Romania

Summary:

Motivated Computer Science student interested in full-stack web development. Comfortable building small web applications using React, Python, Django, PostgreSQL, and REST APIs. Looking for an internship where I can improve my software engineering skills, contribute to real features, and learn from experienced developers.

Education:

Bachelor of Science in Computer Science

University of Bucharest, Romania

Expected Graduation: 2027

Technical Skills:

- Programming Languages: Python, JavaScript, TypeScript basics, SQL
- Frontend: React, HTML, CSS, responsive design, basic accessibility
- Backend: Django, Django REST Framework basics, REST APIs
- Databases: PostgreSQL, SQL joins, filtering, aggregations
- Testing: PyTest basics, Jest basics
- Tools: Git, GitHub, pull requests, Docker basics
- Methodologies: Agile, code reviews, technical documentation

Projects:

Student Task Manager Web App:

- Built a React frontend with reusable components and basic form validation.
- Created a Django backend with REST endpoints for tasks, users, and project boards.
- Used PostgreSQL for data storage and wrote SQL queries for filtering and reporting.
- Added basic PyTest tests for backend views and simple Jest tests for React components.

Portfolio Dashboard Prototype:

- Created a dashboard prototype for tracking project progress and team workload.
- Used React charts and simple REST API calls.
- Wrote README documentation and setup instructions.

Experience:

Software Development Volunteer

Local Student Tech Club, 2025

- Helped maintain a small internal website.
- Fixed UI bugs and improved page responsiveness.
- Used Git branches and pull requests for collaboration.

Soft Skills:

- Clear communication in English
- Proactive learning mindset
- Team collaboration
- Attention to detail

- Openness to feedback

Certifications:

- Introduction to Web Development, online course
- Git and GitHub Basics, online course
