Andrei Ionescu

Senior Full Stack Developer

Email: andrei.ionescu@example.com | Phone: +40 700 111 003 | Location: Bucharest, Romania

Summary:

Senior Full Stack Developer with 8 years of experience building enterprise web applications using C#, .NET, ASP.NET Core, Angular, TypeScript, Entity Framework Core, RESTful APIs, Azure, Docker, and CI/CD pipelines. Experienced in architecture, code reviews, testing, security, and mentoring engineers.

Experience:

Senior Full Stack Developer

TechNova Solutions, Bucharest

2021 - Present

- Designed and delivered scalable web applications using ASP.NET Core and Angular.
- Built RESTful APIs with API versioning, Swagger/OpenAPI documentation, OAuth2, and JWT authentication.
- Used Entity Framework Core for data access, migrations, and relational database modeling.
- Deployed services to Azure App Services and Azure SQL Database.
- Improved CI/CD workflows using Azure DevOps Pipelines and GitHub Actions.
- Reviewed code for architecture, security, maintainability, and performance.
- Mentored junior developers and helped define engineering standards.

Full Stack Developer

Digital Bridge Systems, Bucharest

2017 - 2021

- Developed backend services in C# and .NET Core.
- Built Angular frontend modules using TypeScript and component-based design.
- Wrote unit tests and integration tests using NUnit.
- Containerized local development environments using Docker and Docker Compose.
- Improved query performance and database migration reliability.

Technical Skills:

- Backend: C#, .NET, .NET 8, ASP.NET Core, Entity Framework Core
- Frontend: Angular, TypeScript, HTML, CSS
- APIs: RESTful APIs, Swagger/OpenAPI, OAuth2, JWT
- Databases: SQL Server, Azure SQL Database, relational database design
- Cloud: Azure App Services, Azure Functions, Azure SQL Database, Azure App Configuration
- DevOps: Docker, Docker Compose, Azure DevOps Pipelines, GitHub Actions
- Testing: NUnit, integration testing, test coverage review
- Architecture: CQRS basics, Domain-Driven Design, distributed systems, event-driven architecture
- AI Tools: GitHub Copilot, Cursor, Claude Code basics

Education:

Bachelor's Degree in Computer Science

Politehnica University of Bucharest

Soft Skills:

- Technical leadership
- Analytical thinking

- Problem-solving
- Adaptability
- Code quality mindset
- Clear communication
