PROFILE

Hardworking Computer Science student with a strong foundation in software development and a passion for problem-solving. I am a fast learner, eager to expand my technical skills and contribute to innovative projects. Dedicated to continuous growth and ready to take on new challenges in a professional environment.

PERSONAL PROJECTS

MHP TECHNICAL WORKSHOP

- Car management platform developed under the coordination of MHP - A Porsche Company. Features include inventory management and a car configurator.

DUCK SOCIAL NETWORK

- Social app for humans and ducks with community groups and real-time racing features (Academic Project)

WEB-PROGRAMMING--COUNTER-STRIKE-2

- A clean, HLTV-inspired front-end interface for Counter-Strike 2 esports. Built with HTML and CSS to showcase match stats, latest news, and team rankings.(Academic Project - Ongoing)
